## Jury decision about task 2 cancellation in Tapalpa Mexico

**Monday October 25th**

22 pilots have asked for cancellation of the task.

As defined in the 2004 rules, the jury must decide about cancellation of the task after it is flown.

Jury is composed of the following committee members : Franck Brown, Gin Seok Song, Xavier Murillo, Stefan Mast, Christian Quest, Hans Bollinger, Torsten Siegel (Fred Escriba was absent at this jury meeting).

### The jury unanimously agrees to cancel this task.

The jury wants to explain its decision to the pilots:

- the task was unsafe for the majority of the pilots heading for the last turnpoint that was not reachable in a safe way,
- it was a good decision for the pilots to decide to land on their own after trying to contact unsuccessfully the organization.
